Notes

Our Customer Charter outlines how we plan to provide customers with a five star service.

Resolving complaints quickly and learning from what customers tell us is an important part of providing a service that our customers would rate as 5/5.

Listening to customers

We believe that every comment counts and we can learn more about what customers want by simply listening to what they say and how they say it.

Typically, we resolve around 7/10 complaints within 24hrs, normally during the same conversation.

We perform very well when compared with other energy suppliers - in 2015, we received less than 50% of the complaints of the best performing Big Six supplier* - but we know there's always room for improvement.

Towards a 'five star' service

We use all the information we gather from complaints, expressions of dissatisfaction and regular customer surveys to understand where improvements can be made in the future and to develop our Customer Charter.
